

Injection
Navasol Vet

Butaphosphan + Cyanocobalamin

Only for the use of animals

Composition

Each ml contains Butaphosphan INN 100 mg & Cyanocobalamin BP (Vitamin B12) 0.05 mg.

Pharmacology

Navasol Vet is a balanced injectable solution of Butaphosphan (phosphorous) & Cyanocobalamin (Vitamin B12) which acts as a metabolic stimulant and tonic. Butaphosphan (Phosphorous) acts as an anabolic agent in animal body and influence the process of transformation of food into living tissue. Cyanocobalamin (Vitamin B12) enhances protein and fat metabolism and also improves formation & maturation of red blood corpuscles.

Indication

For the improvement of metabolism, strengthen resistance & promote the growth of young animals. Supportive treatment of infertility, in debility, convalescence, muscles disability. Tonic incase of weakness, secondary anemia and over exertion. Tetany & paresis in addition to Ca and Mg therapy.

Poultry: Rapid growth, boost resistance in stress condition preventing cannibalism.
