

Size : 72 x 150 mm

Tilcon Vet™

Tilmicosin 25%

Composition:

Each ml oral solution contains Tilmicosin Phosphate INN equivalent to Tilmicosin 250 mg.

Description:

Tilmicosin is a semi-synthetic broad spectrum antibiotic of macrolide group. It affects bacterial protein synthesis through binding to 50S ribosomal subunit. This antibacterial activity is bacteriostatic but at high concentration it may be bactericidal.

Indication:

Tilcon Vet™ is used for the treatment of respiratory infections in chicken and turkey associated with Mycoplasmosis (*Mycoplasma gallisepticum* and *M. synoviae*), Chronic Respiratory Disease (CRD) and Complex Chronic Respiratory Disease (CCRD).

Dosage & Administration:

For Poultry:

1 ml per 3 litre of drinking water for 3- 5 consecutive days (15mg tilmicosin/kg bw/day).

Or as directed by the registered Veterinarian.

Contraindications:

Do not use in case of hypersensitivity to tilmicosin. Do not allow horses and other equines access to drinking water containing tilmicosin.

Withdrawal period(s):

Chickens - 10 days

Turkeys - 19 days

Precautions:

For oral use only, do not inject.

Do not use with lincosamide and other macrolide antibiotics.

Storage:

Keep away from light, store in a dry and cool (below 30° C temperatures) place. Keep all medicines out of reach of children.

Packing: Each box contains 100 ml solution in PET Bottle.

Only for the use in animals
