

Oral Solution

## Coczul Vet

Toltrazuril 2.5% oral solution

**Only for the use of animals**

### Composition

Each ml oral solution contains Toltrazuril INN 25 mg.

### Pharmacology

**Coczul Vet** (Toltrazuril) induces anticoccidial effects by changing in the fine structure of coccidian development stages. The changes are-

- Swelling of the endoplasmic reticulum and Golgi apparatus.
- Cytoplasmic vacuolization
- Abnormalities in the peri-nuclear space
- Disturbances in nuclear division.
- Obstruction of the wall-forming bodies of macrogametes.
- Reduction of enzymes of the respiratory chain of the parasites.

### Indication

**Coczul Vet** (Toltrazuril) is indicated for the prevention and treatment of all kind of *Eimeria* species responsible for coccidiosis in poultry.

### Dosage & Administration

For oral administration only.

*Treatment:* 1ml (25 mg)/liter of drinking water for continuous administration over 2 consecutive days, or 3 ml (75 mg)/litre of drinking water given for 8 hours per day, on 2 consecutive days.

*Prevention:* 1ml (25 mg)/liter of drinking water for 2 consecutive days within 10-18 days per month up to 4 months of age. Or, as directed by the Veterinary Physician.

### Contraindication

Should not be administered the animals with impaired hepatic and/or renal function. Should not be used in animals hypersensitive to active ingredient.

### Warning & Precaution

Maintain the recommended dose to minimize the risk of resistance.

### Side effects

Growth inhibition and polyneuritis can occur in case of high dose.

### Use in pregnancy & lactation

Not applicable.

### Drug Interaction

With medicine: Toltrazuril is compatible with antibiotics such as enrofloxacin, ampicillin, tetracycline, tiamulin and tylosin.

With food & others: Not known.

### Overdose

Generally 3-5 times overdose is readily tolerated without any symptoms.

### Withdrawal Period

Poultry: Meat- 8 days, Egg- Should not be used in laying birds producing eggs for human consumption.

### Storage

Store below 30°C, away from light and in a dry place. Keep all medicines out of reach of children.

### Packing

Each box contains 100 ml solution in PET bottle.
