

# Ammo Check

## Composition

*Yucca schidigera* Plant Extract.

Which contains **Saponin** and **Glycocomponent**

## Description

Ammo Check is a concentrated extract from the *Yucca schidigera* plant. This natural extract is obtained by cold press processing and used to reduce bad order, ammonia and other toxic gas emissions of livestock, poultry and fish.

## Indications

Fish and Shrimp:

- Removes toxic gases like NH<sub>3</sub>, H<sub>2</sub>S, NO<sub>3</sub>
- Binds free ammonia and converts it into nontoxic nitrogenous compounds
- Improve Phytoplankton growth
- Accelerate microbial growth in water and digestive tract
- Inactivate the urease enzyme

Poultry:

- Remove NH<sub>3</sub> and bad smells from poultry litter
- Improve digestion, feed intake and FCR
- Improves body immunity
- Accelerate microbial growth in the digestive tract
- 

Cattle:

- Increases appetite & improve nutrition absorption
- Prevent bloat and tympani
- Reduce stress
- Increases body weight
